Private Label Ballasts

NANOLUX
Technology Inc

NANOLUX

Nanolux is proud to introduce the opportunity to supply retail stores with their own private labeled ballasts. In the competitive market of digital ballasts, stores may find the need to have their own house brand at a very competitive price. Nanolux has become the leading ballast brand being sold in more countries worldwide than any other brand. The same quality that goes into every Nanolux ballast goes into every private label ballast we manufacture. You will notice that some of the designs are similar to recognizable branded ballasts in the market. That is because Nanolux Technologies provides OEM manufacturing for some of the largest names in the business. The minimum order for private label ballasts is 300 units of any model. All private label ballasts come with a two-year warranty. Full color packaging is also available. Contact your local Nanolux rep for more information

Shipping

All orders will be shipped FOB Salt Lake City, UT. Customers will be responsible for the freight charge from Salt Lake City to their store location. The Nanolux outbound freight discount will be applied to the shipping charge for the best rate.

Order Processing

Packaging Artwork Confirmation.........................7 days
First Order Processing.....................................30 days
