

BASE BALLAST

The Nanolux Base ballast is a no frills, workhorse. With a proven circuit design used for close to a decade, this Nanolux ballast will give you years of reliable service. Ballast comes with a dual industry output cord. Works on 110-240 volts and comes with a 120V power cord. We have reduced the length of the case with a more compact circuit board design.

This ballast does NOT work with the NCCS APP system.

- 2 Year Nanolux Warranty
- 110-240V Input
